- To work within a team and get out into the world, working on projects
- I would like to broaden my professional horizon
- To constantly develop myself further
- To inspire people to follow their dreams

About me

My name is Sabrina Tanja Bühlmann. Born March 14, 1984 in Bern, Switzerland. I've had a knack for being creative at the push of a button since I was a kid.

Translating and realizing creative ideas into impressive projects - no matter how impossible they seem, doesn't scare me. On the contrary, that's my passion. I have an incredible drive to do big things. I thrive when it comes to aesthetics, design, technology, and people. Loyalty is very important to me and I always stood up for those who were weaker. I have a great talent for connecting with a wide variety of people, inspiring the right people for projects, and love working in a team. I would like to constantly develop myself further, break new ground and expand my professional horizons.

I love my two Greek tortoises and love to travel the world and meet new cultures, places, and people. Everything that has to do with computers, technology, and innovation has a magical attraction for me. I am a nerd. Apart from that, we are responsible for taking care of our world and all living beings, as well as supporting and respecting one another. Yes that's me :-D
